ABOUT US

SG Consulting Engineers Plc is an industry leader in Civil Engineering, Road Construction and Rehabilitation works.

SG Consulting Engineers Plc has been in construction for the past 13 years and has completed projects that encompass the full spectrum of civil engineering services. These include Surveying, mapping & scanning services, water & environment, highways & transportation, structural design and geological geotechnical design

Our site management teams are dynamic, skilled and have very good experience in all facets of civil engineering construction. We take pride in delivering successful projects on time, within budget and to the highest quality standards.

We have a large plant holding that ensures capacity for and continuity of all projects, from small to large. A rigorous company-wide training regime not only ensures quality at all levels, but effectively up-skills and uplifts our staff, local population and sub-contractors. Our clients include governments, local authorities, corporate groups and property developers.

OUR MISSION

- To offer independent consulting services.
- To provide outstanding planning and consultancy services to our clients (Public, private and municipal companies and organization).
- To assist our clients in achieving their goals in close co-operation with them.
- To be recognized as one of the leading companies in the consultancy services in the sectors of water and Environment, Transportation Design and Structural Design.

OUR VISION

Our vision is to remain an industry leader in the multi-disciplines which we currently operate within the civil engineering industry and to expand this in the construction economy in Ethiopia.

We strive to be the industry's partner of choice, by delivering quality and value in the various construction sectors through integrated solutions and services.

OUR SERVICES

SURVEYING, MAPPING & SCANNING SERVICES

Topo surveys- Cadastral – Photogrammetric mapping – Digital terrain models – Digitising and scanning services – GIS.

WATER & ENVIRONMENT

Water resources planning and development – Water supply and treatment – Sewage collection and storm water management – Treatment and disposal of wastewater and sludge – Irrigation and flood control – Environmental impact assessment – Solid waste management – Industrial wastewater – Marine and Aquatic

HIGHWAYS & TRANSPORTATION

Transport engineering and operations – Highway planning and design – Traffic design – Traffic lights design – Toll Collection systems – Railway planning and design – Airports – Road safety planning – Preparation of Procurement, Specifications and Guidelines – Feasibility studies – Consulting services for highways contractors.

STRUCTURAL DESIGN

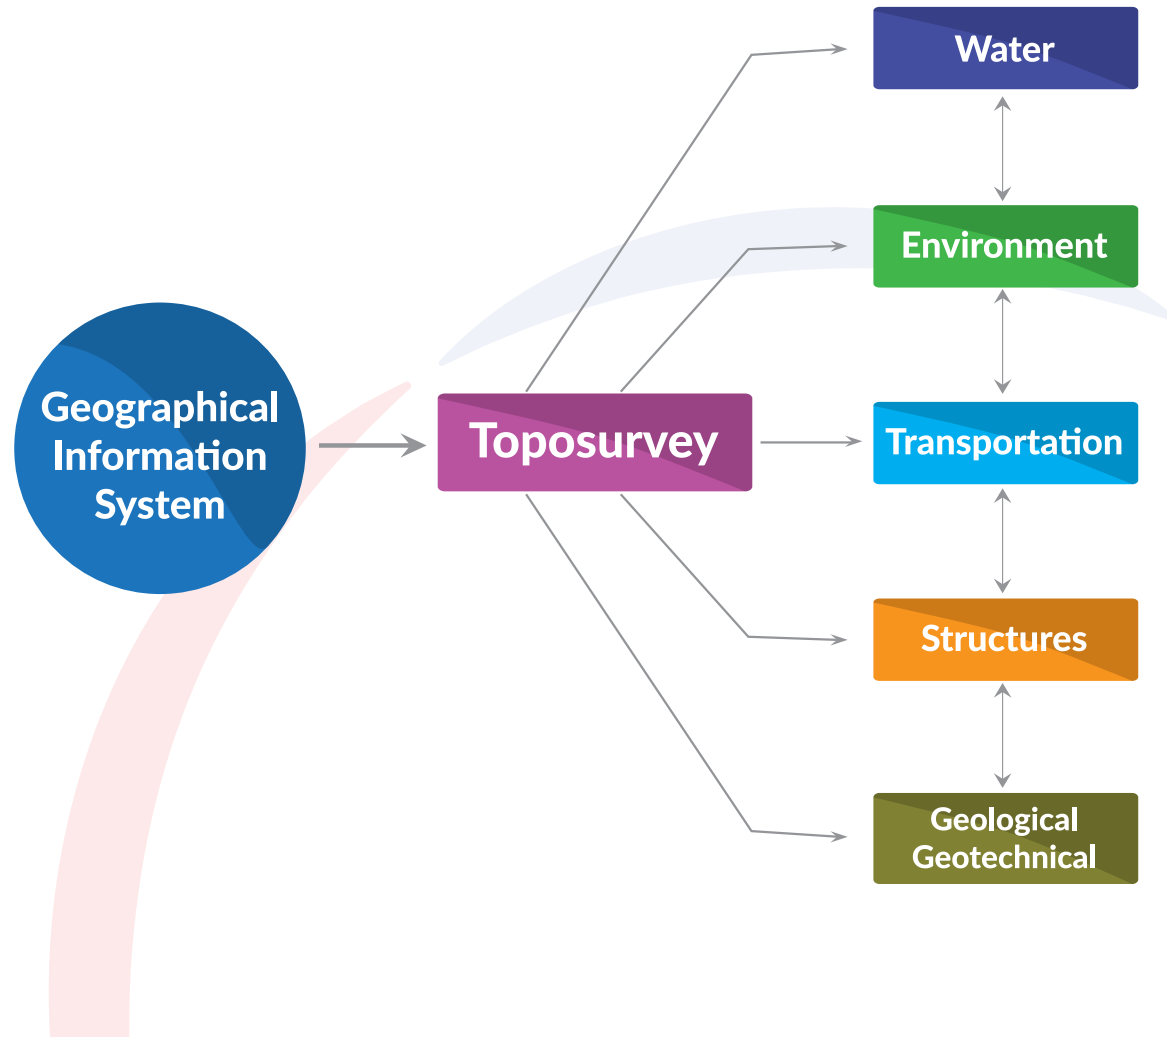

Buildings – Road Bridges – Pedestrian Bridges – Culverts – Underground structures – Cut and Cover Tunnels – Earth Retaining structures – Liquid retaining structures – Steel structures – Construction monitoring – Preparation of Procurement, Specifications and Guidelines – Consulting services.

GEOLOGICAL GEOTECHNICAL DESIGN

Geotechnical-geological design – Hydro geological design – Geophysical design – Sampling boreholes – Laboratory tests – Evaluation of Geotechnical data – Slope stability design- Design of retaining structures – design of buildings foundation – Soil improvement design

MAIN FIELDS OF ACTIVITY

SERVICES PROVIDED

- Feasibility Studies
- Environmental audits and impact studies
- Cost - benefit analysis
- Conceptual design
- Detailed engineering studies and Design
- Tender preparation and evaluation
- Project management and administration
- Project, programme appraisal and evaluation
- Design and construction supervision
- Field surveys (flow metering, data capture, topography, soil and groundwater)
- Operation consultancy
- Staff training

SOME OF RECENT PROJECTS

Bole Junction Project

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.
